Age Group: Key Findings and Recommendations

Key Takeaways	Business Insights	Recommendations
• The most selected policy varies by age group. Ages 18–24 and 25–30 have the most sales in policy **POL4321HEL**; ages 31–40 favour **POL3309HEL**.	• Policy preferences differ across age groups.	• Use age-specific policy preferences to guide product communication. Replace policy codes with product names on the slide, if available.
• Offline-Agent is the leading sales mode in every age group. Ages 31–40 have the most sales overall: **11,190**.	• Agent sales are important across all age groups, especially the largest group.	• Maintain agent support while exploring ways to make other channels more attractive to customers.
• Ages 31–40 have the most customers each month. Customer counts peak in March and fall in April.	• The overall monthly pattern is strongly influenced by the largest age group.	• Compare March and April by age group to see whether the change was concentrated in ages 31–40 or occurred across groups.
• Expected settlement is highest for ages 65+ (**74.1%**) and lowest for ages 18–24 (**37.5%**).	• The expected settlement percentage varies considerably by age group.	• Validate this pattern against actual settlement results before using it for pricing or policy decisions.

Conclusion

Insights

- Revenue peaked in March and fell in April.
- Offline-Agent led in revenue and customers.
- Premiums and policy preferences varied by age group.

Recommendations

- Investigate the March rise and April decline.
- Grow digital sales while monitoring Offline-Agent.
- Validate settlement patterns before making decisions.

Thank you
