

Wavecon Telecom: 5G Business Impact Analysis

Introduction

Wavecon Telecom recently launched its 5G services across major cities in India.

- Business impact of the 5G rollout
- Comparison of pre and post-5G performance
- Identify growth opportunities

Key Performance Indicators (KPIs) Analysed

- Revenue
- ARPU (Average Revenue Per User)
- TAU (Total Active Users)
- TUsU (Total Unsubscribed Users)
- Market Share (MS)
- City Performance
- Plan Performance

1.Revenue Impact

KPI	Before 5G	After 5G	Change	Business Interpretation
Revenue	₹15,977M	₹15,897M	-0.50%	Slight Decline in Revenue
ARPU	₹ 190.23	₹ 211.25	11.00%	Higher Revenue Per User
TAU	84M	77M	-8.30%	Active User Base Declined
TUsU	5.63M	6.96M	23.60%	Customer Churn Increased

Key Takeaways

- Overall revenue declined slightly by **0.5%** after the 5G launch.
- ARPU increased by **11%**, indicating that retained customers generated higher revenue per user.
- Active Users (TAU) decreased **by 8.3%**, suggesting a decline in the active customer base.
- Total Unsubscribed Users (TUsU) increased by **23.6%**, indicating higher customer churn after the launch.

Business Insight

- Although customers who remained, generated more revenue per user. But, the decline in active users and the increase in unsubscribed users offset this benefit, resulting in a slight decline in overall revenue.

Recommendations

- Accelerate 5G adoption through **targeted campaigns**.
- Improve **customer retention strategies** to reduce churn.
- Investigate reasons for declining **active users** and rising unsubscriptions.
- Focus **marketing efforts** on underperforming cities.
- Optimize **pricing** and **recharge plans**.

2. Most Underperforming KPI after the 5G launch

TUsU (Total Unsubscribed Users)

Key Takeaways

- TUsU increased from **5.63M** to **6.96M**, a **23.5% increase** after the 5G launch.
- Unsubscribed users **increased** across all four post-5G months.
- **Lucknow (+77.91%)** and **Pune (+55.30%)** recorded the highest increase in customer churn.

Business Insight

- The significant rise in unsubscribed users indicates that **customer retention** became the biggest challenge after the 5G launch, limiting the overall success of the rollout.

Recommendations

- Investigate the reasons for **customer churn** in high-impact cities.
- Improve **customer retention** through better 5G plans and loyalty offers.
- Enhance customer support and **service quality**.
- Prioritize **retention campaigns** in cities with the highest unsubscribe rates.

City Name	Unsub_users_After_5G	Unsub_users_Before_5G	Unsub_users_chg%
Lucknow	0.31M	0.17M	77.91%
Pune	0.67M	0.43M	55.30%
Jaipur	0.34M	0.22M	52.47%
Chandigarh	0.15M	0.10M	45.63%
Hyderabad	0.53M	0.39M	38.08%
Chennai	0.71M	0.52M	36.94%

Month Name	Unsub_users_Before_5G	Unsub_users_After_5G
Jan/Jun	1.17M	1.56M
Feb/Jul	1.42M	1.86M
Mar/Aug	1.50M	1.87M
Apr/Sep	1.55M	1.68M
Total	5.63M	6.96M

3. Market Share Analysis

Key Takeaways

- PIO remained the market leader with an average market share of **35.42%**.
- WaveCon ranked **third** with an average market share of **19.56%**.
- WaveCon's average market share declined from **20.24% (Before 5G)** to **18.88% (After 5G)**.
- The 5G launch did not improve WaveCon's competitive position in the market.

Month	PIO_Ms	Others_Ms	Dadafone_Ms	WaveCon_Ms	Britel_Ms
January	34.36%	7.22%	10.24%	19.76%	28.42%
February	34.78%	7.21%	9.87%	20.79%	27.35%
March	35.31%	7.24%	10.16%	20.97%	26.32%
April	36.01%	7.01%	10.61%	19.43%	26.95%
June	34.82%	7.31%	10.38%	18.70%	28.79%
July	35.51%	7.36%	10.08%	19.15%	27.90%
August	35.81%	7.35%	10.31%	19.84%	26.70%
September	36.73%	7.15%	10.81%	17.84%	27.47%
Total	35.42%	7.23%	10.31%	19.56%	27.49%

Business Insight

- Despite launching 5G services, WaveCon's market share declined slightly after the rollout. This suggests that the 5G launch alone was not sufficient to attract new customers or retain existing ones, while competitors, particularly PIO, maintained their market leadership.

Recommendations

- Increase **customer acquisition** through attractive 5G plans and promotional offers.
- Strengthen **customer retention** initiatives to reduce customer churn.
- Focus **marketing** efforts on cities with weaker market performance.
- Differentiate 5G offerings through **competitive pricing** and **value-added services**.
- Continuously monitor **competitor strategies** and respond to changing **market trends**.

4. Plan Analysis

Q1 . After the 5G launch, which plans performed well and which underperformed?

Key Takeaways

Performing Well

- **P1**: Revenue increased from ₹1.8B → ₹2.4B (+33%).
- **P2 & P3**: Revenue remained stable at ₹1.5B before and after 5G.
- **P11** (₹1.9B) and **P12** (₹1.2B) showed strong customer adoption.

Underperforming Plans

- P4 (1.1B → 876.8M), P5 (1.0B → 651.5M), & P6 (749.1M → 494.6M), showed declining revenue.
- P7 recorded the largest decline (582M → 156M).

Business Insight

- Customers shifted toward **newer, high-data 5G plans**.
- **P1, P11, and P12** benefited the most, while older plans(P4, P5, P6, P7) lost demand.

plan	Monthly Revenue							
	January	February	March	April	June	July	August	September
p1	₹ 396M	₹ 503M	₹ 466M	₹ 448M	₹ 536M	₹ 628M	₹ 620M	₹ 603M
p2	₹ 326M	₹ 409M	₹ 386M	₹ 368M	₹ 340M	₹ 388M	₹ 392M	₹ 368M
p3	₹ 296M	₹ 349M	₹ 353M	₹ 321M	₹ 304M	₹ 341M	₹ 335M	₹ 317M
p4	₹ 243M	₹ 280M	₹ 274M	₹ 278M	₹ 200M	₹ 237M	₹ 229M	₹ 212M
p11					₹ 414M	₹ 486M	₹ 478M	₹ 482M
p5	₹ 216M	₹ 285M	₹ 258M	₹ 246M	₹ 144M	₹ 172M	₹ 179M	₹ 157M
p6	₹ 167M	₹ 197M	₹ 199M	₹ 187M	₹ 109M	₹ 135M	₹ 126M	₹ 125M
p12					₹ 255M	₹ 300M	₹ 306M	₹ 300M
p7	₹ 123M	₹ 158M	₹ 156M	₹ 146M	₹ 33M	₹ 35M	₹ 45M	₹ 43M
p8	₹ 94M	₹ 120M	₹ 111M	₹ 110M				
p13					₹ 72M	₹ 82M	₹ 82M	₹ 79M
p9	₹ 52M	₹ 59M	₹ 57M	₹ 58M				
p10	₹ 23M	₹ 37M	₹ 34M	₹ 38M				

Plan Analysis

Recommendations

- Continue promoting **P1, P11, and P12**.
- Review **P4, P5, and P6** to improve their value.
- Reassess **P7** for redesign or gradual phase-out.
- Use **customer** usage **data** and **feedback** to optimize the existing plan portfolio

Plan Analysis

Q2: Is there any plan affected largely by the 5G launch?
Should we continue or discontinue that plan?

Key Takeaways

- **P7 (25 GB Combo 3G/4G Data Pack)** was the most affected plan.
- Revenue declined from ₹582.4M to ₹155.6M (approximately **73%**).
- This indicates a significant drop in customer demand after the 5G launch.

plan	revenue_before	revenue_after
p1	1.81bn	2.39bn
p2	1.49bn	1.49bn
p3	1.32bn	1.30bn
p4	1.08bn	0.88bn
p5	1.00bn	0.65bn
p6	0.75bn	0.49bn
p7	0.58bn	0.16bn
p8	0.43bn	NA
p9	0.23bn	NA
p10	0.13bn	NA
p11	NA	1.86bn
p12	NA	1.16bn
p13	NA	0.31bn

Business Insight

- Customers appear to have shifted from the **P7 - 4G plan** to newer **5G data plans**, resulting in a sharp decline in P7 revenue.

Recommendations

- Do **not** discontinue P7 immediately.
- Review **customer** usage and **feedback** to identify the reasons for the decline.
- If demand continues to decrease, **redesign** or gradually phase out **P7** and **migrate** customers to newer **5G** plans.

Plan Analysis

Q3 Is there any plan that was discontinued after the 5G launch?

What is the reason?

Key Takeaways

- **P8, P9, and P10** generated revenue only **before** the 5G launch.
- These plans recorded **no revenue after** the rollout, indicating they were likely discontinued.
- At the same time, **P11, P12, and P13** were introduced and started generating revenue.

plan	revenue_before	revenue_after
p1	1.81bn	2.39bn
p2	1.49bn	1.49bn
p3	1.32bn	1.30bn
p4	1.08bn	0.88bn
p5	1.00bn	0.65bn
p6	0.75bn	0.49bn
p7	0.58bn	0.16bn
p8	0.43bn	NA
p9	0.23bn	NA
p10	0.13bn	NA
p11	NA	1.86bn
p12	NA	1.16bn
p13	NA	0.31bn

Business Insight

- The data suggests that Wavecon refreshed its product portfolio by replacing older plans with newer **5G-ready plans** to better align with changing customer needs.

Recommendations

- Continue monitoring the performance of **P11, P12, and P13**.
- Collect **customer feedback** to ensure the new plans meet customer expectations.
- Regularly **optimizing** the plan portfolio based on **customer adoption** and **revenue trends**.

Conclusion & Strategic Recommendations

Overall Findings

- Revenue remained almost stable after the 5G launch, declining slightly by **0.5%**.
- Higher **ARPU (+11%)** indicates retained customers spent more.
- **Active Users (-8.3%)** declined, while **Unsubscribed Users (+23.5%)** increased, making customer retention the biggest challenge.
- Market share declined from **20.24% to 18.88%**, showing that the 5G rollout did not improve WaveCon's competitive position.
- Customers shifted toward newer 5G-ready plans (**P1, P11, P12**), while older plans (**P4–P7**) lost demand.

Strategic Recommendations

- Increase customer migration through attractive **5G upgrade campaigns**.
- Strengthen **customer retention** and loyalty programs.
- Optimize **pricing** and benefits of underperforming plans.
- Continuously monitor **customer feedback** and **competitor strategies**.
- Focus **marketing efforts** on cities showing declining KPIs.

Thank You
